Dear Student,

Greeting to you for the New Year & the Years Ahead!

This message/Letter of Greetings is actually a mode of communication and conversation with all of you, which is not possible verbally due to certain reasons. The entire Management is very happy to have you here as an important part of this system. Tomorrow when you pass out of this institute and become successful in your careers, the name of this Institute will shine resplendently as far as your growth and success takes you. The Institute will feel proud of their alumni. It's not just your education, but also your entire code of conduct during the few years of your stint with Sunder Deep that will reflect on your conduct Professionally & Personally for the rest of your Lives, as we believe that an educational system isn't worth a great deal if it teaches young people how to make a living but does not teach them how to make a life.

Besides being focused on your subjects that you are being taught and qualifying your exams with good marks, you also need to learn a few things that may not be taught to you in your classrooms. This is the best time to learn proactively as to how to spend your leisure time, how to work while you need to work and how to play while you need to play. You need to know how to conduct yourself in your classrooms, in the fields, in a party and later in your office, in formal meetings, friendly chats and discussions, etc. The whole purpose of education is to turn mirrors into windows.

Nothing Succeeds Like Success. All you need to do is to be focused, keep on the right track and follow your feet. There might come a time when life will not be that easy and situations may turn

difficult to be handled. In such situations you have to believe in yourself and be full of beans and take the bull by its horn. Your courage, wisdom, faith and education will sail you through. Never let your education go in vain. Always remember that education is an ornament in prosperity and a refuge in adversity. Be strong enough to turn over a new leaf. Start afresh, with corrections made.

Your success, glory, growth, happiness and joy should never become a deliberate reason for other's unhappiness, anger or misery. It should not come to you at the cost of the happiness of others. If you are a hard worker and a sincere person and your heart is in the right place, success will find its way to your destiny and prove that you are worth your salt. Never part or do away with humility and politeness. It costs nothing but wins everything. One can catch more flies with honey than with vinegar.

We are looking forward to a long term relationship with all you people. We hope to see you shining like the stars in the sky, with as many feathers in your cap as possible and let the name of your Sunder Deep Group of Institutions shine with you. We wish you all the best in your future endeavors.
